

# THE WATER CYCLE

# WATER CONSERVATION

*How can we help help conserve water and reduce what we use?*

Turn off the water when brushing your teeth.

Take shorter showers and use less bath water.

Limit outdoor water waste! Don't water plants in the middle of hot days, or it evaporates quickly.

Turn off the water when scrubbing your hands with soap.

Fix leaky faucets so they don't drip and waste water.

Plant trees! They help purify water.

Don't pour hazardous chemicals like paint down the drain.

Only run your laundry washing machine or dishwasher when it is full.
